

# 12-13.5ton Forklift Truck

Drivelines: Cummins 6.7 engine or Wuxi diesel engine meeting national level 3 (EU3) emission standard.....

## THE STEERING OIL TUBE AND WIRE HARNESS ARE ARRANGED INDEPENDENTLY

## PRODUCT FEATURE

- (1) Drivelines: Cummins 6.7 engine or Wuxi diesel engine meeting national level 3 (EU3) emission standard is assembled on the truck. This model possesses strong drive power and good weather-resistance.
- (2) Transmission: The model is assembled with originally designed Heli automatic transmission with a market inventory of 500, which is safe and reliable, and easy to maintain.
- (3) Drive axle: The truck is assembled with axle specially designed for heavy trucks, , stable and reliable braking, have a good using the performance ,performance and price rate
- (4) Hydraulic system: Italian hydraulic system with high efficiency and fuel economy is assembled on the truck. Advanced techniques such as load sensing and dual pump converging are applied to save energy and reduce the cost.
- (5) High strength structure components: Heavy-duty box-type chassis is reliable. The design perfectly meets the requirement of reliability and stability, especially in paper industry and container transportation.
- (6) Tilting cabin makes a better experience of maintenance and repairing.

## THE MAIN PARAMETER

| Model                         |                           | Units | CPCD150-WX-06III     | CPCD160-WX-06III |
|-------------------------------|---------------------------|-------|----------------------|------------------|
|                               |                           |       | CPCD150-CU-06III     | CPCD160-CU-06III |
| Load center                   |                           | mm    | 600                  |                  |
| Lifting capacity              |                           | kg    | 15000                | 16000            |
| Lifting height                |                           | mm    | 3000                 |                  |
| Lifting speed (at rated load) |                           | mm/s  | 330                  |                  |
| Lowering speed ( unloaded)    |                           | mm/s  | 300-600              |                  |
| Mast tilt (forward/backward)  |                           | Grad  | 6月12日                |                  |
| Engine                        |                           |       | Wuxi diesel /Cummins |                  |
| Dimensions                    | Overall length(with fork) | mm    | 4735 ( 6105 )        |                  |
|                               | Overall width             | mm    | 2560                 |                  |
|                               | Mast height (retracted)   | mm    | 3220                 |                  |
